I am writing this letter to express to you, and any supplier considering your plan, the benefits we have experienced since implementing your program in 1999.

By offering payment plans, we have been able to meet the requests of our customers, allowing them to buy larger orders and more expensive products that they would not have otherwise been able to acquire. This has meant that not only are we providing a value added service to our customers, but also we are able to sell larger orders, increasing our sales.

Your program also allows us to keep our outstanding accounts receivable at a minimum, and increases our cash flow that we reinvest into our business, and use to acquire more inventory. Factoring our receivables has definitely had a positive influence in the ability to grow our business.

We find the program easy to use, and we appreciate the flexibility you provide in doing business together compared to conventional financial institutions.

Thank you for the past 6 years and we look forward to continuing our business relationship long into the future.

Sincerely,  
Sounds Distribution Inc.
